You love what you do, now love where you do it.

As the Revenue Cycle Project Manager, you will be responsible for managing projects related to process improvement strategies such as, enhancing revenue integrity, increasing first-pass yield rates, improving the patient experience, and more. You should be an excellent problem solver with keen attention to detail, and ready to demonstrate your expertise in utilizing project management principles, and collaborating with multiple departments and leaders across the organization.

From coordinating project deadlines and responsibilities, to monitoring progress and improving operational workflow, you will ensure adequate support and management within the applicable scope and budget.

Qualifications:

Education and Experience

- Bachelor's Degree in Healthcare Administration, Business Administration, or related field required
- 3 years of hospital Revenue Cycle experience required
- 2 years of Project Management experience required
